

# More Than Just Gas

Your Welding, Safety and Equipment Supplier

You know BOC as the UK and Ireland's largest provider of industrial, medical and special gases, but our business is about more than just gas...

Our welding, safety, equipment and accessories offer you more. More products, more choice and unrivalled industry expertise.

We have an extensive range of more than 5,000 products, stocked in our state-of-the-art central warehouse. You can call us to order, drop in to one of our 50+ local stores or browse our industry leading online shop.

All this is backed up by friendly and knowledgeable customer service, expert technical support and best-in-class safety, environmental performance and quality.

# More Products

As the UK's leading gases and equipment supplier our buying power and reach gives you access to tens of thousands of quality products through long-standing relationships with all the major brands, as well as our own-brand products offering you unbeatable quality and value for money.

Our state-of-the-art, national distribution centre and local retail network give our customers access to a huge range of over 5,000 in-stock products and rapid access to thousands more.

Our comprehensive selection of MIG/MAG, TIG and MMA arc machines cover a wide range of welding requirements for the professional welder. With carefully selected accessories, spares and consumables that support the effective operation of the welding equipment, you get everything you need from a single, trusted supplier, making your job easier and you more productive.

And we supply everything you need for cutting, grinding, sanding and finishing, whether you're looking for everyday hand tools or need robust, professional equipment to tackle the toughest of jobs. Our range includes, abrasives, power tools, hand tools and associated accessories.

The BOC professional grade gas equipment range includes single and multi-stage regulators, hoses and fittings, FBA's, cutting and welding torches, gas nozzles, kits, cylinder trolleys and LPG equipment.

We also offer an extensive range of welding safety and general safety products, including personal protective equipment, to safeguard employees and ensure compliance with health and safety regulations.

All our ranges include products from our own private label brands, BOC and Ryval, offering high end quality and value for money options to all our customers.

Our enhanced portfolio of equipment and consumables brands has been designed for optimum performance, extra safety and reliability.

# More Choice

Our customers have the flexibility and choice to order however and whenever they want, with more convenient ways to buy and more options for collection and delivery.

## Click

When you shop at [boconline.co.uk/shop](https://boconline.co.uk/shop) everything you need is all in one place.

Our core range of centrally stocked, fast moving products is available to buy online 24/7 at the click of a button, with next day delivery<sup>1</sup> or free click and collect from your local Gas & Gear store.

You can order on account or via guest checkout and order within seconds using our quick re-order features for frequently ordered products or previous orders in just a few clicks.

Additional features include self-serve options for easy visibility and control of your account online.

No need to wait on the phone, simply download digital copies of your VAT invoices and proof of delivery notes, easily make payments and create or update direct debits.

Our mobile app has all the same functionality as the website, giving you the option to order products or access your account on the move.

<sup>1</sup> Please note, for a small number of customers, next day delivery may not be possible. Free delivery with minimum spend of £50 (excl VAT) on eligible equipment. £5 under £50 spend (excl VAT). <sup>2</sup> Excludes the Scottish Highlands and islands.

## Call

Choose to call our dedicated orders and enquiries line on **0800 0511 900**.

Our expert team will be on hand to quickly take your order, manage account queries and offer expert support and product advice to ensure you get the highest levels of service.

We offer national delivery, with orders placed before 3pm delivered next day<sup>2</sup>, or if you prefer, BOC offers the convenience of free collection on equipment orders from our national network of 50+ local Gas & Gear stores.

Person answering the telephone was clear, easy to understand, efficiently dealt with my order and was polite, can't ask for any better.

## Collect

Our national network of Gas & Gear retail stores operates from 50+ locations across the UK and Ireland so you're never far from BOC.

Our knowledgeable staff have an in-depth understanding of the pressures and demands experienced by our customers and are at your disposal to help find solutions to the challenges you might face.

We offer expert advice on areas such as regulator selection and trade-in opportunities and make sure that you comply with current safety guidelines, though our CP7 and CP47 equipment checks in-store.

Our customers can be assured of our extensive knowledge, the highest quality products and our exceptional levels of customer service.

Very helpful and informative person in the shop in Aberdeen. I called in to buy MIG contact tips and am now returning on Monday to buy an AC/DC TIG set which I would otherwise have bought online. It's given me the confidence that BOC is a better option to buy from and benefit from local support.

# Unrivalled Industry Expertise

BOC has been at the forefront of the gases and equipment industry for over 135 years. Our customers can benefit from this wealth of experience and expertise, through our wide range of complementary technical, training and maintenance services.

## Technical support

BOC's knowledgeable and experienced technical experts are focused on developing new technologies, processes and innovative products and are available to assist you in using these to optimise your processes. For instance, by monitoring inventory, we can make sure a customer doesn't incur unnecessary costs by failing to keep stocks at optimum levels.

Our world class Manufacturing Technology Centre (MTC) at Wolverhampton is a powerhouse of expertise and innovation in gases and engineering applications. BOC's investment in the MTC facility ensures that the centre remains at the cutting edge of welding and metal fabrication techniques too.

The Welder's Toolkit is an online resource of expert welding advice from BOC, designed to help you find answers to your welding questions and solve your welding problems. It's packed with health and safety guidance, how-to guides, tips on choosing the right welding gases and equipment and more.

Being able to speak to a member of staff that was super helpful and knowledgeable just made everything easy for my first time.

## Training

BOC offers industry specific welding training at all levels, from apprentice to advanced (including refresher courses) covering:

- All metals welding training
- Cutting training
- Gas detection training
- Calibration training
- Specialised automotive training

Our market-leading gas safety training packages can be delivered face-to-face by our expert trainers at your site or accessed online, for quick and convenient access.

## Service, maintenance, and calibration

We offer a broad spectrum of service and maintenance options which are designed to ensure our customers benefit from non-stop productivity.

Work can be carried out on-site or at one of our workshops. Our support engineers ensure that all your gas and equipment is compliant to stringent legislation and safety standards.

- Emergency repairs
- Servicing and maintenance
- CP7 inspections in accordance with BCGA guidelines, by our independently qualified engineers
- Calibration and validation to EN standard
- Gas monitor calibration service

## Stock management and vending solutions

BOC offers a range of stock control services to help you maintain your onsite stores at optimum levels to ensure non-stop production. From branded vending machines and consignment stock management, to placing our expert controllers inside your organisation to personally run the service for you, not only will your stock be expertly controlled, but we will also keep your inventory updated and ensure commercial viability.

# Abrasives

BOC offers a wide range of abrasive discs including cutting, grinding, superthin, cutting wheels and flap discs, the use of these technically superior and long lasting products can result in improved cutting and grinding speeds and reduced wear and tear on machinery resulting in lower processing costs.

Operator safety is paramount. All abrasive products are certified as conforming to the standards laid down by OSA, the Organisation for the Safety of Abrasives. This international body ensures that the products it approves are traceable all the way back to the factory and conform to the relevant EN standards.

- Abrasive accessories
- Buffing and polishing
- Cutting
- Deburring and surface preparation
- Grinding
- Points, cones and plugs
- Sanding
- Wire wheels and brushes

# Gas Equipment

Manufactured to the highest standards, the range includes cutting equipment, flashback arrestors, flowmeters, valves and gauges as well as a broad selection of accessories and storage solutions.

- Shanks
- Mixers
- Cutters
- Flashback arrestors
- Cryogenic and dry ice storage
- Cylinder accessories
- Flowmeters, valves and gauges
- Gas cylinder connections
- Gas delivery systems
- Gas detection and alarm systems
- Purifiers and filters

# Hoses, Pipes, Tubes and Fittings

Our hoses are robust, general-purpose hoses manufactured with a three-layer construction for safety and longevity. The high-strength construction is weather and abrasion resistant and offers unbeatable flexibility and kink resistance and conforms to BS EN 1256:2006. Fuel gas and oxygen hoses are supplied with machine swaged fittings and check valves approved to BS EN 730-2:2002.

- Hose fittings
- Welding hose reels
- Cryogenic and metal hoses
- Water hoses
- Welding hoses
- Pipe
- Pipe fittings

# Industrial Supplies

We offer all the essential basics including adhesives, tapes and sealants, paints and coatings, lubricants and fluids as well as a range of hardware and fasteners for every job, big or small.

- Adhesives, tapes and sealants
- Fasteners
- Hardware
- Janitorial and facility maintenance
- Lighting and electrical
- Lubricants and fluids
- Paints and coatings

# Regulators

We supply a broad portfolio of single and multi-stage regulators that work with a wide range of gases and cylinders to give you precise pressure control across the full application spectrum.

BOC Gas equipment is designed and tested to fully comply with BS EN ISO standards to ensure optimum safety and guaranteed peace of mind.

- Balloon regulators
- Industrial gas regulators
- Medical gas regulators
- Regulator accessories
- Specialty gas regulators

## Safety and PPE

BOC offers a wide range of personal protective equipment to safeguard employees and ensure compliance with health and safety regulations. Our extensive range covers head, eye, face, hand, foot, hearing and respiratory protection, as well as skincare, safety wear and workplace safety equipment, from welding curtains and first aid kits to fire extinguishers and warning labels.

- Ergonomic protection
- First aid kits and supplies
- Hand and arm protection
- Head, face and eye protection
- Hearing protection
- Protective clothing
- Respiratory protection
- Signs, tapes and tags
- Welding blankets, curtains and screens
- Welding helmets and lenses
- Work apparel

# Tools

If you need robust, professional equipment to tackle the toughest of jobs, we've got you covered. Our range includes proven power tools from all the leading brands and manufacturers, plus spares and accessories. You'll find the hand tools needed for every-day jobs too, from complete kits to individual items.

- Angle grinders
- Drills
- Chop saws
- Socket sets
- Spanners and ratchets
- Screwdrivers
- Pliers
- Clamps
- Levels
- Tube cutters

# Welding Equipment

Whatever your level of experience, the application or working environment, our accessories, consumables and spares are carefully selected to support the effective operation of your equipment. The extensive range includes all the required torches and accessories regardless of process, as well as a comprehensive range of fume extractors, carts, running gear, cables, tables, covers, weld cleaners and much more.

- MIG, TIG, plasma, sub arc, robotic and laser welding consumables
- Welding and cutting equipment accessories
- Oxy acetylene welding consumables
- Welding cable and accessories
- Hose, hose fittings and accessories
- Fume extractors and accessories
- Welding chemicals, marking devices and cleaners
- Welding cart and running gear
- Welding rod ovens and containers

# Welding Wire and Electrodes

Whether you're looking for a consistent and reliable source of general-purpose or specialist materials our extensive range of quality filler materials has you covered. We have mild steel, low-hydrogen, stainless steel, hard facing and cast-iron electrodes, MIG/MAG wire, MIG wire and TIG rods for a range of materials as well as gas welding and brazing wires.

BOC have been audited and verified as a manufacturer of welding filler material according to VdTÜV 1153.

- Brazing and soldering filler metals and flux
- Gas welding rods
- Submerged arc flux
- TIG welding rods
- Welding electrodes
- Welding wires

## BOC is a Linde company, the Leading Global Gases and Engineering Business with a Mission to Make the World More Productive

We are the UK and Ireland's largest provider of industrial, medical, and special gases as well as related equipment, engineering services, and solutions to support them.

We produce, package, and distribute thousands of different types of gases to our customers every day. Our unrivalled range includes atmospheric gases, high purity gases and mixtures, refrigerants, and chemicals, for applications as diverse as cooling magnets in hospital MRI scanners to fuelling zero emissions vehicles and much more.

BOC offers tailored supply solutions for every size of customer; our cylinder customers enjoy a nationwide delivery and collection network; bulk customers the reassurance of 24/7 delivery; and for our high-demand customers we offer onsite production or dedicated pipeline supply.

Our welding, safety and equipment customers can be confident we've got the expertise to help them choose the right product from our extensive range, along with a choice of easy and convenient ways to order and all delivered nationally or collected locally.
